

Plymouth County District Attorney's Office

Timothy J. Cruz

BE SAFE AT HOME

We usually think about violence coming from a stranger, but violence happens in our homes and at the hands of people we know and trust.

If you are a victim of abuse and need help, there are many agencies in your area ready to assist you. Many of the resources are available to you 24 hours a day, 7 days a week, free of charge.

All citizens have the right of protection from emotional, financial, and physical abuse, regardless of age and ability. Elders and persons with disabilities may fall victim to these crimes but there are services out there to help.

To report a crime, contact your local police department.

In an EMERGENCY always dial 911.
